PROFESSIONAL EXPERIENCE

Founder / Developer | Armani Web Design

| Seattle, WA | May 2025 - Present

Founded and grew Armani Web Design to 10+ clients and \$20K+ in revenue, delivering conversion-focused websites, landing pages, and web applications for small and local businesses.

Develop and deploy production web applications using Next.js, Node.js, Supabase, GitHub, and Vercel, with hands-on work across application structure, development, QA, deployment, and iteration.

Built an AI-assisted sales operating system supporting lead generation, prospect research, qualification, personalized cold outreach, follow-up, and pipeline management.

Own end-to-end client acquisition and delivery, including prospecting, discovery, proposals, live demonstrations, solution design, development, deployment, optimization, and post-launch support.

Apply ChatGPT, OpenAI Codex, and Claude Code across research, prototyping, development, debugging, QA, and client delivery.
